**7.2 STATEMENT OF FINANCIAL ACTIVITY FOR THE PERIOD ENDING 31 MARCH 2021****File Number:** 5152**Author:** Mark Willis, Accountant**Responsible Officer:** Alan Lamb, Director Corporate Services**Authority/Discretion:** Information**SUMMARY**

This report has been compiled to fulfil the statutory reporting requirements of the *Local Government Act 1995* (Act) and associated Regulations, whilst also providing the Council with an overview of the Shire's financial performance on a year to date basis for the period ending 31 March 2021.

**DISCLOSURE OF ANY INTEREST**

Nil

**BACKGROUND**

Pursuant to section 6.4 of the *Local Government Act 1995* and regulation 34(4) of the *Local Government (Financial Management) Regulations 1996* (the Regulations), a Local Government is to prepare, on a monthly basis, a statement of financial activity that reports on the Shire's financial performance in relation to its adopted/amended budget.

The Shires Financial Reports are produced in accordance with the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996* as amended. Regulation 34 of the *Local Government (Financial Management) Regulations 1996* requires that Local Governments produce a monthly statement of financial activity and such other supporting information as is considered relevant by the Local Government.

The Shires financial reporting framework provides Council, management and employees with a broad overview of the Shire's wide financial position.

**STATUTORY ENVIRONMENT**

*Section 34 of the Local Government (Financial Management) Regulations 1996 provides:*

**34. Financial activity statement required each month (Act s. 6.4)**

- (1) *A Local Government is to prepare each month a statement of financial activity reporting on the revenue and expenditure, as set out in the annual budget under regulation 22(1)(d), for that month in the following detail —*
- (a) *annual budget estimates, taking into account any expenditure incurred for an additional purpose under section 6.8(1)(b) or (c); and*
  - (b) *budget estimates to the end of the month to which the statement relates; and*
  - (c) *actual amounts of expenditure, revenue and income to the end of the month to which the statement relates; and*
  - (d) *material variances between the comparable amounts referred to in paragraphs (b) and (c); and*

- (e) *the net current assets at the end of the month to which the statement relates.*
  - (2) *Each statement of financial activity is to be accompanied by documents containing —*
    - (a) *an explanation of the composition of the net current assets of the month to which the statement relates, less committed assets and restricted assets; and*
    - (b) *an explanation of each of the material variances referred to in subregulation (1)(d); and*
    - (c) *such other supporting information as is considered relevant by the Local Government.*
  - (3) *The information in a statement of financial activity may be shown —*
    - (a) *according to nature and type classification; or*
    - (b) *by program; or*
    - (c) *by business unit.*
  - (4) *A statement of financial activity, and the accompanying documents referred to in subregulation (2), are to be —*
    - (a) *presented at an ordinary meeting of the Council within 2 months after the end of the month to which the statement relates; and*
    - (b) *recorded in the minutes of the meeting at which it is presented.*

*Each financial year, a Local Government is to adopt a percentage or value, calculated in accordance with the AAS, to be used in statements of financial activity for reporting material variances.*

Details of any budget variation in excess of \$30,000 (year to date) follow. There are no other known events which may result in a material non-recoverable financial loss or financial loss arising from an uninsured event.

**STRATEGIC IMPLICATIONS**

<b>4: Good Governance and an effective organisation</b>  Leadership that provides strategic direction for the community, supported by efficient and effective service delivery	<b>4.1: Effective Governance and Leadership</b>	<b>4.1.4: Ensure governance policies and procedures are in accordance with legislative requirements</b>

**RISK MANAGEMENT CONSIDERATIONS**

RISK	LIKELIHOOD	CONSEQUENCE	RISK ANALYSIS	MITIGATION
<b>Financial:</b>  The Shire is exposed to a number of financial risks. Most of these risks exist in respect to recurrent revenue streams which are required to meet current service levels. Any reduction in these revenue streams into the future is likely to have an impact on the Shire's ability to meet service levels or asset renewal funding requirements, unless the Shire can replace this revenue or alternatively reduce costs.	Possible	Major	High	Risk assessments have been completed in relation to a number of higher level financial matters. The timely and accurate completion of monthly financial reporting enabling Council to make fully informed decisions is a control that assists in addressing this risk.

**CONSULTATION**

Internal consultation within the Corporate Services Department.

External consultation with Moore Stephens.

In accordance with section 6.2 of the *Local Government Act 1995*, the annual budget was prepared having regard to the Strategic Community Plan, prepared under section 5.56 of the *Local Government Act 1995*.

**MONTHLY FINANCIAL REPORT  
FOR THE PERIOD ENDED 31 MARCH 2021**

**BASIS OF PREPARATION**

**BASIS OF PREPARATION**

**REPORT PURPOSE**

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996, Regulation 34*. Note: The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation.

**BASIS OF ACCOUNTING**

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

**CRITICAL ACCOUNTING ESTIMATES**

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

**PREPARATION TIMING AND REVIEW**

Date prepared: All known transactions up to 07 April 2021

**SIGNIFICANT ACCOUNTING POLICES**

**THE LOCAL GOVERNMENT REPORTING ENTITY**

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 14 to these financial statements.

**GOODS AND SERVICES TAX**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

**ROUNDING OFF FIGURES**

All figures shown in this statement are rounded to the nearest dollar.

**SIGNIFICANT ACCOUNTING POLICIES**

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

**KEY INFORMATION**

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

**KEY INFORMATION**

**Provisions**

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

**Employee benefits**

**Short-term employee benefits**

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

**Other long-term employee benefits**

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

**Contract liabilities**

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

### 7.3 2020-21 MID-YEAR BUDGET REVIEW

**File Number:** 5122

**Author:** Mark Willis, Accountant

**Responsible Officer:** Alan Lamb, Director Corporate Services

**Authority/Discretion:** Legislative

#### SUMMARY

For Council to consider and accept the 2020-21 Mid-Year Budget Review.

#### DISCLOSURE OF ANY INTEREST

Nil

#### BACKGROUND

Local governments are required by regulation 33A of the *Local Government (Financial Management) Regulations 1996* to conduct a budget review between 1 January and 31 March each financial year. This report presents an indicative summary of the 2020-21 mid-year budget review.

The review is an opportunity to reevaluate the current budget and allocate funding for emerging community and social priorities, allowing the organisation to respond and provide the best result for the Shire.

There are also other factors and urgent matters that affect the operational activities and revenue streams which have resulted in budget variations and are discussed further in this report.

Budget reviews provide a tool for decision making for current and future activities and they are a key component of prudential financial management practices in order to mitigate financial risk exposure to Council. In conjunction to compliance with legislation, the review aims to reconsider all budget items and review them by taking into account any changes in the macro or minor economic variables and any other relevant information.

#### STATUTORY ENVIRONMENT

##### ***Local Government Act 1995***

6.8. Expenditure from municipal fund not included in annual budget

(b) is authorised in advance by resolution\*; or

(c) is authorised in advance by the mayor or president in an emergency.

\* Absolute majority required.

- (b) consider the local government’s financial position as at the date of the review; and*
- (c) review the outcomes for the end of that financial year that are forecast in the budget.*

2. *Within 30 days after a review of the annual budget of a local government is carried out it is to be submitted to the council.*

3. *A council is to consider a review submitted to it and is to determine\* whether or not to adopt the review, any parts of the review or any recommendations made in the review.*

*\*Absolute majority required.*

4. *Within 30 days after a council has made a determination, a copy of the review and determination is to be provided to the Department.*

**POLICY IMPLICATIONS**

There are no policy implications related to this report.

**FINANCIAL IMPLICATIONS**

The Budget review has identified some areas of over and underspend, with minimal effect on the bottom line of the Budget. However, figures presented in this report are indicative and subject to change following further review and prioritisation. Further detailed analysis will be undertaken over the next few months during the formulation of the 2021/22 Annual Budget and any areas requiring Councils attention will be referred to the next scheduled Ordinary Council Meeting.

Areas requiring Council’s attention immediately were highlighted in a separated agenda item and have also been included in Attachment 1 - Note 5.

**COMMENT**

The focus of the 2020-21 mid-year Budget review has been to consider any changes in Council’s operating environment since the beginning of the financial year with a view to forecasting the financial impacts likely to arise for the remainder of the financial year and make a determination in relation to prevailing economic conditions and the most likely impact on the Council’s financial position.

Annual budgets are by nature predictions of what will happen during the term of the budget. Although budgets are carefully prepared, unexpected circumstances and external influences result in the need to review the proposed activities during the entire budget term.

Council needs to ensure there is sufficient operational capacity to deliver the services and budget programs as set out in the adopted 2020-21 budget and accommodate events and issues that have arisen since budget adoption.

One of the main variations identified is a decrease in the actual surplus brought forward from the 2019-20 audited accounts which was lower than the budget estimate by \$1,457,781. A reconciliation identifying the estimated surplus differences is attached together with the 2020-21 budget review report.

Future monitoring will be required and further budget adjustments may be required later in the financial year and to ensure that Council will have no surprises during the budget process for 20/21 year over the next few months and also at 30 June 2021. Council will have the opportunity, to allocate the surplus funds accordingly once the final position and cash flow is confirmed.

**SHIRE OF DERBY WEST KIMBERLEY  
NOTES TO AND FORMING PART OF THE BUDGET REVIEW REPORT  
FOR THE PERIOD ENDED 31 MARCH 2021**

**1. BASIS OF PREPARATION**

The budget review has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from *AAASB 16* which would have required the Shire of Derby West Kimberley to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this budget review have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the budget review has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

**THE LOCAL GOVERNMENT REPORTING ENTITY**

All funds through which the Shire of Derby West Kimberley controls resources to carry on its functions have been included in the financial statements forming part of this budget review.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements.

**CRITICAL ACCOUNTING ESTIMATES**

The preparation of a budget review in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

**ROUNDING OFF FIGURES**

All figures shown in this budget review are rounded to the nearest dollar.

**2020-21 ACTUAL BALANCES**

Balances shown in this budget review report as YTD Actual are as forecast at the time of budget review preparation and are subject to final adjustments.

**BUDGET COMPARATIVE FIGURES**

Unless otherwise stated, the budget comparative figures shown in the budget review relate to the original budget estimate for the relevant item of disclosure.

SHIRE OF DERBY WEST KIMBERLEY  
NOTES TO THE BUDGET REVIEW REPORT  
FOR THE PERIOD ENDED 31 MARCH 2021

3 COMMENTS/NOTES - NET CURRENT FUNDING POSITION (CONTINUED)

**SIGNIFICANT ACCOUNTING POLICIES**

**CASH AND CASH EQUIVALENTS**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities.

**FINANCIAL ASSETS AT AMORTISED COST**

The Shire of Derby West Kimberley classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

**TRADE AND OTHER RECEIVABLES**

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Trade receivables are held with the objective to collect the contractual cashflows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire of Derby West Kimberley applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

**INVENTORIES**

**General**

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

**CONTRACT ASSETS**

A contract asset is the right to consideration in exchange for goods or services the entity has transferred to a customer when that right is conditioned on something other than the passage of time.

**CURRENT AND NON-CURRENT CLASSIFICATION**

An asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire of Derby West Kimberley's operational cycle. In the case of liabilities where the Shire of Derby West Kimberley does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire of Derby West Kimberley's intentions to release for sale.

**TRADE AND OTHER PAYABLES**

Trade and other payables represent liabilities for goods and services provided to the Shire of Derby West Kimberley prior to the end of the financial year that are unpaid and arise when the Shire of Derby West Kimberley becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

**PREPAID RATES**

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire of Derby West Kimberley recognises revenue for the prepaid rates that have not been refunded.

**EMPLOYEE BENEFITS**

**Short-Term Employee Benefits**

Provision is made for the Shire of Derby West Kimberley's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire of Derby West Kimberley's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current of financial trade and other payables in the statement position. Shire of Derby West Kimberley's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

**PROVISIONS**

Provisions are recognised when the Shire of Derby West Kimberley has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

**CONTRACT LIABILITIES**

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to be controlled by the Shire of Derby West Kimberley are recognised as a liability until such time as the Shire of Derby West Kimberley satisfies its obligations under the agreement.
