7.4 STATEMENT OF FINANCIAL ACTIVITY - FEBRUARY 2022

File Number:	5179
Author:	Alan Thornton, Acting Director of Corporate Services
Responsible Officer:	Amanda Dexter, Chief Executive Officer
Authority/Discretion:	Information

SUMMARY

This report has been compiled two fulfil the statutory reporting requirements of the *Local Government Act 1995* (Act) and associated Regulations, whilst also providing the Council with an overview of the Shire's financial performance on a year to date basis for the period ending 31 January 2022.

DISCLOSURE OF ANY INTEREST

NIL.

BACKGROUND

Pursuant to section 6.4 of the *Local Government Act 1995* and regulation 34(4) of the *Local Government (Financial Management) Regulations 1996* (the Regulations), a Local Government is to prepare, on a monthly basis, a statement of financial activity that reports on the Shire's financial performance in relation to its adopted/amended budget.

The Shires Financial Reports are produced in accordance with the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996* as amended. Regulation 34 of the *Local Government (Financial Management) Regulations 1996* requires that Local Governments produce a monthly statement of financial activity and such other supporting information as is considered relevant by the Local Government.

The Shires financial reporting framework provides Council, management and employees with a broad overview of the Shire's wide financial position.

STATUTORY ENVIRONMENT

Section 34 of the Local Government (Financial Management) Regulations 1996 provides:

34. Financial activity statement required each month (Act s. 6.4)

- (1) A Local Government is to prepare each month a statement of financial activity reporting on the revenue and expenditure, as set out in the annual budget under regulation 22(1)(d), for that month in the following detail —
- (a) annual budget estimates, taking into account any expenditure incurred for an additional purpose under section 6.8(1)(b) or (c); and
- (b) budget estimates to the end of the month to which the statement relates; and
- (c) actual amounts of expenditure, revenue and income to the end of the month to which the statement relates; and
- (d) material variances between the comparable amounts referred to in paragraphs (b) and (c); and

- (e) the net current assets at the end of the month to which the statement relates.
 - (2) Each statement of financial activity is to be accompanied by documents containing —
- (a) an explanation of the composition of the net current assets of the month to which the statement relates, less committed assets and restricted assets; and
- (b) an explanation of each of the material variances referred to in subregulation (1)(d); and
- (c) such other supporting information as is considered relevant by the Local Government.
 - (3) The information in a statement of financial activity may be shown —
- (a) according to nature and type classification; or
- (b) by program; or
- (c) by business unit.
 - (4) A statement of financial activity, and the accompanying documents referred to in subregulation (2), are to be —
- (a) presented at an ordinary meeting of the Council within 2 months after the end of the month to which the statement relates; and
- (b) recorded in the minutes of the meeting at which it is presented.

Each financial year, a Local Government is to adopt a percentage or value, calculated in accordance with the AAS, to be used in statements of financial activity for reporting material variances.

POLICY IMPLICATIONS

AF14 – Significant Accounting Policies

- AF18 Sundry Debtors Collection
- AF19 Outstanding Rates Collection
- FM4 Reserve Accounts
- FM7 Cash Flow Management
- FM8 Investments

FINANCIAL IMPLICATIONS

Expenditure for the period ending has been incurred in accordance with the 2021/22 Annual Budget as adopted by Council at its meeting held 31 August 2021 (Minute No. 100/21 refers) budget parameters, which have been structured on financial viability and sustainability principles.

Details of any budget variation in excess of \$30,000 (year to date) follow. There are no other known events which may result in a material non-recoverable financial loss or financial loss arising from an uninsured event.

STRATEGIC IMPLICATIONS

GOAL	OUR PRIORITIES	WE WILL
1. Leadership and Governance	1.2 Capable, inclusive and effective organisation	1.2.2 Provide strong governance

RISK MANAGEMENT CONSIDERATIONS

RISK	LIKELIHOOD	CONSEQUENCE	RISK ANALYSIS	MITIGATION
Financial: The Shire is exposed to a number of financial risks. Most of these risks exist in respect to recurrent revenue streams which are required to meet current service levels. Any reduction in these revenue streams into the future is likely to have an impact on the Shire's ability to meet service levels or asset renewal funding requirements, unless the Shire can replace this revenue or alternatively reduce costs.	Possible	Major	High	Risk assessments have been completed in relation to a number of higher level financial matters. The timely and accurate completion of monthly financial reporting enabling Council to make fully informed decisions is a control that assists in addressing this risk.

CONSULTATION

Internal consultation within the Corporate Services Department.

External consultation with Moore Stephens.

In accordance with section 6.2 of the *Local Government Act 1995*, the annual budget was prepared having regard to the Strategic Community Plan, prepared under section 5.56 of the *Local Government Act 1995*.

Dear Amanda

ACCOUNTING SERVICE INFORMATION REPORT FOR THE PERIOD ENDED 28 FEBRUARY 2022

We advise that we have completed the compilation of your Statutory Monthly Statement of Financial Activity (by Statutory Reporting Program) for the month ended 28 February 2022 and enclose our Compilation Report and Statements.

We are required under APES 315 *Compilation of Financial Information* to report certain matters in our compilation report. Other matters which arise during the course of our compilation that we wish to bring to your attention are raised in this report.

It should be appreciated that our procedures are designed primarily to enable us to compile the monthly financial statements and therefore may not bring to light all weaknesses in systems and procedures, or all financial matters of interest to management and Council, which may exist. However, we aim to use our knowledge of the Shire's financial operations gained during our work to make comments and suggestions, which, we hope, will be useful to you.

Please note in order to meet legislative requirements, details and explanations of the material variances between the year to date actuals and year to date budget need to be completed by Shire staff, as required by *Local Government (Financial Management) Regulation* 34(1) (d).

COMMENTS/SUGGESTIONS

Attached is a list of comments/suggestions derived from compiling the statement of financial activity and other end of month review services.

MATTERS FOR MANAGEMENT ATTENTION:

Please complete the Statutory Monthly Financial Statements by completing Note 16 – Major Variations by providing a comment for each item where the Council's YTD Budget and YTD Actual are over the variance threshold. These items are indicated with a \checkmark or \blacktriangle .

We noted no other matters we wish to draw to management's attention.

Should you wish to discuss any matter relating to our service or any other matter, please do not hesitate to contact us.

Yours sincerely

KEY INFORMATION

FOR THE PERIOD ENDED 28 FEBRUARY 2022

BASIS OF PREPARATION

The financial report has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and notfor-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The Local Government (Financial Management) Regulations 1996 specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 14 to these financial statements.

BASIS OF PREPARATION

SIGNIFICANT ACCOUNTING POLICES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the Council's operational cycle.

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at a mortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and

- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for impairment of receivables is raised when there is objective evidence that they will not be collectible.

KEY INFORMATION

Prepaid rates are, until the taxable event for the rates has occurred, refundable at the request of the ratepayer. Rates received in advance give rise to a financial liability. On 1 July 2021 the prepaid rates were recognised as a financial asset and a related amount was recognised as a financial liability and no income was recognised. When the taxable event occurs the financial liability is extinguished and income recognised for the prepaid rates that have not been refunded.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

KEY INFORMATION

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee benefits

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

SUMMARY

The Shire of Derby/West Kimberley Long Term Financial Plan (LTFP) 2022/23 – 2036/37 has been reviewed as per Statutory Requirements. The LTFP incorporates the latest Asset Management Plans. The document is presented for the Committees endorsement and acceptance.

DISCLOSURE OF ANY INTEREST

NIL.

BACKGROUND

The Long Term Financial Plan establishes key result areas, objectives, strategies to achieve them and measurable performance indicators to enable Council and the Community to review progress.

STATUTORY ENVIRONMENT

Section 5.56 of the *Local Government Act 1995,* requires WA Local Governments to produce a **'Plan for the Future'** of the district.

A local government is to ensure that plans made under subsection (1) are in accordance with any regulations made about planning for the future of the district

POLICY IMPLICATIONS

NIL.

FINANCIAL IMPLICATIONS

The Long Term Financial Plan (LTFP). The LTFP is integrated with other strategic plans including Asset Management Plans and allows the Shire to assess not only its ability to fund the Corporate Business Plan but also ensure the Shire's financial sustainability. The LTFP is based on the Shire's current operational budgets and is underpinned by a number of key assumptions. These are listed in Appendix (1) and are determined through a combination of external source (e.g. Australian Bureau of Statistics) and historical trend data. The Long Term Financial Plan currently covers the 15 year period 2022/23 – 2036/37 and will be updated on an annual basis to be used in the development of annual budgets.

COMMENT

Council requested that the CEO incorporate the latest asset management financial projections into the shire's future long term financial plans for council's ongoing considerations.

Long term strategic planning is not a budgeting process but rather a continuous planning journey and at focusing attention on the organisation's future financial capacity. Its purpose is to build an improved understanding of the timing of financial needs over the life of the plan and progress the organisation's overall financial strategy. The financial impact of other strategic planning activities is combined with established services commitments, to produce a financial plan that is part projection and part predictive.

Long term financial planning requires the establishment of numerous assumptions for each year of the plan, some global and some variable. These assumptions have varying impacts on the plan outcomes depending on the sensitivity of the dependent calculations. It is also important that assumptions used in the long term financial plan match with those assumptions used in other plans such as asset management plans.

1.0 Foreword

"A friendly and diverse place with awesome opportunities"

Our Vision

We are pleased to present the Shire of Derby/West Kimberley Draft Long Term Financial Plan for 2022/23 - 2036/37.

As part of the Shire's ongoing commitment to an integrated approach to planning for the future, it provides the Council and the community with a picture of the Shire's long term financial and asset management circumstances and assists us to meet our strategic outcomes and objectives.

The Shire will encounter many challenges and opportunities over the next 15 years. Changes in population levels and demographics bring with them changing community needs and expectations. The Council will require a clear understanding of its capacity to meet these service expectations as it maintains a strong focus on sound financial management.

Council welcomes community participation in the planning process as we develop the strategic direction for a promising future for our Shire. We invite members of the community to contact a Councillor or Senior Council staff members if they have any questions. The Shire of Derby/West Kimberley Draft Long Term Financial Plan is an important planning tool as we strive to achieve the strategies set out in the Shire of Derby/West Kimberley Strategic Community Plan 2012-2021.

The Shire has recently devoted significant resources to improving its strategic planning. This work continues as we constantly seek to improve our systems and service delivery.

Further work is required to update the asset management component of this Plan. This Plan will be used with our Corporate Business Plan and Workforce Plan to achieve our goals and drive the Shire in achieving its vision of "A friendly and diverse place with awesome opportunities".

3.0 Executive Summary

The following information provides a brief summary of the Draft Long Term Financial Plan 2022/23 - 2036/37, this should be read in conjunction with the underlying assumptions detailed in this Plan.

3.1 Planning for a Sustainable and Stable Future

The Shire of Derby/West Kimberley is planning for a positive and stable future. The Shire seeks to maintain, and where possible, improve service levels into the future while ensuring a healthy financial position.

Long term maintenance and renewal of the Shire's infrastructure remains a significant challenge and requires external funding to ensure the economic and social benefits of the Shire's infrastructure to the broader region and Western Australia are not impacted.

3.2 Significant Issues

The continued provision of community infrastructure remains one of the key priorities and major expenditure items for the Shire.

Renewal of road infrastructure and other community infrastructure remains a high priority due to the social, community and economic benefit these assets provide.

Funding the renewal of these assets is likely to be a significant financial challenge beyond the Shire's forecast capacity if external funding is not available. Adequate maintenance, renewal and upgrading of significant community assets remains highly dependent on the receipt of external grants and contributions.

Rate revenue is forecast to increase by 2.5% (CPI) for the term of the Plan. These increases are to assist in the long term financial stability of the Shire and to maintain the level of services to the community.

3.3 Forecast Capital Projects

An extensive capital works program has been planned over the term of the Plan with a mixture of new/upgrade assets and asset renewals, aimed at ensuring the continued provision of high quality community infrastructure to residents of the Shire. Total planned asset expenditure per asset class over the 15 year term of the Plan is shown in the table below.

Planned expenditure by Asset Class	2022-2037 Amount (\$)
Buildings	26,210,810
Plant and Equipment	9,724,925
Infrastructure - Roads	42,376,873
Infrastructure – Footpaths	1,793,208
Infrastructure – Drainage	2,241,488
Infrastructure - Other	25,719,854

4.0 Community Profile, Vision and Objectives

4.1 Location and Heritage

The Shire of Derby/West Kimberley covers an area of 119,761 square kilometres, servicing 54 Aboriginal communities and three towns. Derby and Fitzroy Crossing being the main population centres with a third township at Camballin. Derby is the major centre of the Shire and this is where the main Administration Centre is located.

The Shire of Derby/West Kimberley offers its residents a unique and unparalleled way of life. On our doorstep are some truly stunning and untouched wilderness like the famed Buccaneer Archipelago, National Parks and gorges, the mighty Fitzroy River and the Gibb River Road.

These pristine environments offer the opportunity for the community to get out camping, fishing and four wheel driving. Derby remains a supply point for an important part of the Kimberley's pastoral, mining, oil and tourist industries.

The Shire continues to maintain a number of assets to service the community, and welcomes visitors to enjoy the scenic area.

The following statistics reflect the Shire's population in comparison to the population of the state of Western Australia.

Population	2011		2016	
Derby/West Kimberley	8,434	Υ	7,730	1
WA	2.35m	\mathbf{T}	2.47m	$\mathbf{\Lambda}$

The chart below shows the population distribution for the Shire by age, highlighting minor changes for both the Shire and Western Australia from 2011 to 2016 censis data.

4.2 Vision

The Shire's strategic vision: "A friendly and diverse place with awesome opportunities"

4.3 Strategic Objectives

The following key strategic priority areas and principles are captured in the Shire's Strategic Community Plan 2012-2021 and considered within the Draft Long Term Financial Plan.

Strategic Priorities:

- Community wellbeing;
- A balance between the natural and built environments;
- A strong and diverse local economy; and
- Good governance and an effective organisation.

5.0 Long Term Financial Planning Overview

5.1 Forecast Revenue

Comprising 36% of total revenue in year 1, rates are expected to generate \$7.9m in 2022/23, increasing to \$11.1m in 2036/37. The Shire is reliant on receiving more than \$168.2m over the next 15 years in untied operating grants, subsidies and contributions to maintain the current level of operations and services. Non operating grants are expected to be received for the renewal of assets over the term of the Plan.

5.2 Forecast Expenditure

Expenditure is forecast to increase roughly in line with inflation, with the exception of depreciation expense which is slightly impacted by the addition of assets.

5.2.1 Expenditure Composition Year 1 to 15

5.3 Net Result

The chart below reflects in the columns the steady increase in operating revenue and expenditure forecast over the 15 years, with the brown line reflecting the net result. Changes in operating and non-operating grants result in the revenue spikes reflected in the chart.

Revenue increases have been modelled throughout the life of the Plan to improve the financial position of the Shire, in order to deliver capital works programs and to maintain service levels to the community. Even with these modelled increases, the net result does not consistently improve, except where higher capital contributions are forecast to be received. If the modelled increases were not to be consistently applied, the financial position would, over time, further deteriorate.

Efficiency savings are also required throughout the Plan. Details of savings are yet to be determined, the challenge will be to achieve these savings without negatively impacting services to the community.

A number of assumptions and estimates have been utilised in arriving at these values and actual events may vary significantly from those provided.

Shire of Derby/West Kimberley Draft Long Term Financial Plan

Item 7.5 - Attachment 1

5.0 Long term Financial Planning Overview (Continued)

5.4 Depreciation Expense

Depreciation expense increases throughout the Plan from \$6.6m in year 1 to \$9.4m in year 15 as assets are revalued and renewed. Depreciation of infrastructure over the 15 years is \$97.3m, shown by the orange line in the chart below. The planned level of infrastructure asset renewal expenditure at \$72.1m, shown by the yellow columns, over the term of the Plan is below the level of depreciation.

Ideally, the average asset renewal should be in line with depreciation expense over the long term, to ensure the value of assets is maintained. On average, the Shire is planning to renew its infrastructure assets at a lower level than they are depreciating over the term of the Plan. The average lifespan of infrastructure assets is greater than 15 years and as such a number of assets will only require renewal beyond the term of the Plan.

5.4.1 Infrastructure Depreciation Expense v Asset Renewal Expenditure

Further improvements in asset management data and the estimation of depreciation expense, along with the future renewal of long lived assets may result in a closer alignment between asset renewals and depreciation expense.

Where the planned asset renewals are lower than depreciation, the written down value of these assets will decrease over time as depreciation erodes the value of the assets. Revaluation of assets in line with inflation may mask a real decrease in value where planned asset renewals are lower than depreciation. Planned property, plant and equipment asset renewals of \$35.9m, shown by the yellow columns in the chart below, over the 15 year term of the Plan is above forecast depreciation expense of \$22.3m, shown by the orange line, over the same period as shown in the chart below.

5.4.2 Property, Plant and Equipment

Further improvements in asset management data and the estimation of depreciation expense, along with the future renewal of long lived assets may result in a closer alignment between asset renewals and depreciation expense.

5.5 Maintenance Expenditure

The current maintenance expenditure allocated in the annual operating budget is expected to continue at current levels, with inflationary increases occurring each year. Longer term maintenance costs may increase as new assets are constructed, these have not been included within this model as they are unknown.

5.0 Long term Financial Planning Overview (Continued)

5.6 Forecast Borrowings and Cash Reserves

In general, the finances of the Shire are expected to remain stable over the long term. Reserves will be utilised to save for major forecast asset renewals and subsequently to fund the renewals, resulting in the variations in reserve levels as shown in the chart below.

5.6.1 Forecast Borrowings and Cash Reserve levels

Existing borrowings are planned to be paid down by year 9 of the Plan. No new loans are planned and reducing borrowings is part of the Shire's strategy to allow flexibility to respond to sudden or unexpected expenditure requirements.

This strategy provides scope to leverage off future grant funding opportunities when, and if, they become available. The strategy also includes the use of cash backed reserves to save for significant future asset renewal spikes.

A number of assumptions and estimates have been utilised in arriving at these values and actual events may vary significantly from those provided.

5.7 Forecast Operating Ratios 2022-2037

Monitoring the Shire's financial rigidity and financial position along with its asset management performance is undertaken by preparing and monitoring various statutory ratios. The red lines in the charts below indicate the Department of Local Government, Sport and Cultural Industries' (the Department) minimum target level of the ratio. An explanation of all ratios is provided at Section 10.

5.7.1 Forecast Current Ratio 2022-2037

As expected for a Shire with a forecast balanced funding surplus position and current borrowing liabilities, the ratio is less than 1.0. This trend is not considered to indicate a threat to the Shire's long term financial position as the current ratio is a short term indicator not a long term indicator. The ratio improves during the term of the Plan as current loan liabilities reduce.

5.7.2 Forecast Own Source Revenue Ratio 2022-2037

The ratio remains above the target, indicating a reduced reliance on grants and contributions.

Refer to Appendix B12 – Forecast Significant Accounting Policies

Shire of Derby/West Kimberley Draft Long Term Financial Plan

5.0 Long term Financial Planning Overview (Continued)

5.7.3 Forecast Operating Surplus Ratio 2022-2037

The ratio how the level of funds from operations remains static through the term of the plan and insufficient to cover depreciation expense. Additional rate increases would be requried to improve this ratio.

5.7.4 Debt Service Coverage Ratio 2022-2037

The debt service coverage ratio is below the target in the first 8 years of the Plan, however increases in 2030-31, with no loan liabilities forecast from 2032-33 for the remainder of the Plan.

5.8 Forecast Asset Ratios 2022-2037

Reflecting the average age of assets, the asset consumption ratio shows how the Shire's assets will age whilst the Shire uses it resources to renew assets.

5.8.1 Forecast Asset Consumption Ratio 2022-2037

The above graph shows the average age of shire assets improves initially before decreasing back to current levels over the long term.

The asset sustainability ratio fluctates throughout the term of the Plan, shown as the red line in the chart above, indicating assets are not being consistently renewed at the same level as depreciation expense.

5.8.3 Forecast Asset Renewal Funding Ratio 2022-2037

The asset renewal funding ratio has not been currently calculated due to a lack of asset management data.

As the asset renewal funding ratio requires 10 years of planned and required asset renewals it is only able to be calculated for the first five years of the Plan once the required asset renewals have been determined.

Shire of Derby/West Kimberley Draft Long Term Financial Plan

6.0 Scenario Modelling

6.1 Scenario Modelling

Scenarios were developed to test the financial impact of reduced levels of operating funding. To ascertain the effect of reduced funding levels, modelling of various scenarios was undertaken.

A base scenario was developed with a rates yield increase in line with inflation (2.5%) for the term of the Plan. Two alternative scenarios were also developed from this base as shown in the table below. All other assumptions remained the same across the three scenarios.

	Rates					
	Total					
Scenario	(2.5%)	Increase				
Base Scenario	0%	2.5%				
Scenario 2	2%	4.5%				
Scenario 3	-1%	1.5%				

The base scenario was selected as the most appropriate and has been used for the Plan. The base scenario includes levels of rate revenue to ensure the current levels of service are maintained.

6.2 Scenario Comparison – Operating Surplus Ratio

The chart above shows the impact of the same change in total rates yield on the Shire's Operating Surplus Ratio (other assumptions remaining the same). The base scenario with rate increases in line with inflation was selected as the basis of this plan. The charts below reflect the impact of a change in total rates yield on the estimated surplus (deficit) at June 30 from the base scenario (other assumptions remaining the same).

Shire of Derby/West Kimberley Draft Long Term Financial Plan

7.0 Strategic Planning and Policies

7.1 Linkage with Other Plans

The Strategic Resourcing Plan is one component of a number of integrated strategic planning practices the Shire has developed. Combining asset management planning and long term financial planning into one document, the Strategic Resourcing Plan considers, and influences, workforce planning along with other key strategic plans.

This Strategic Resourcing Plan has been prepared to achieve compliance with the *Local Government (Administration) Regulations 1996.*

Development of the Plan has also been influenced by the Department's Integrated Planning Framework and Guidelines.

7.2 Strategic Documents Linkage

This Plan includes, and influences, other strategic planning activities as a mechanism to action the strategies contained in the Shire's Strategic Community Plan, as illustrated in the diagram below.

Diagram: Integrated Planning and Reporting Cycle¹

7.3 Strategic Community Plan 2012-2021

The Strategic Community Plan has been prepared to cover a minimum period of 10 years and details the community's vision, aspirations and objectives for the Shire. To achieve the vision, a series of priorities, objectives and strategies were developed. Many strategies may be required to achieve a single objective and many objectives needed to achieve a single priority.

Individual strategies all require actions involving extra human, physical and financial resources. Achieving the Shire's strategic priorities requires careful operational planning and prioritisation. This planning process is formalised as a Corporate Business Plan, operating on a rolling four-year basis.

7.4 Corporate Business Plan

The Corporate Business Plan (CBP) contains details of the actions and resources (human, asset and financial) to achieve each strategy and acts as an organisational guide for the Council and management.

The financial capacity and asset management practices to support the CBP are set out in the Strategic Resourcing Plan for the period. This planning provides an assurance the actions contained in the CBP can be adequately resourced over the next four years and highlights the long term consequences of the application of resources to undertake various projects.

7.5 Workforce and Other Strategic Plans

The Workforce Plan and other strategic plans integrate with the Strategic Resourcing Plan through the workforce requirement for assets and financial resources along with the requirements for a workforce to manage the Shire's assets and financial resources.

The Shire's Workforce Plan has been considered in the development of this Strategic Resourcing Plan. No financial impacts are expected from the Workforce Plan with employee costs forecast to rise in line with forecast inflation at 1.5%.

Shire of Derby/West Kimberley Draft Long Term Financial Plan

8.0 Risk Management

8.1 Risk Management

The Shire provides a diverse range of services and facilities to the general public which exposes it to risks. As part of the implementation of Integrated Planning and Reporting, the Shire intends to formalise its risk based management practices to improve the management of identified risks.

The Shire has a practice of conducting a regular review of insurance levels of assets by the Chief Executive Officer and Director of Corporate Services to ensure the level is adequate. The Shire's insurer is LGIS.

The Shire's investment policy requires the investment of surplus funds (including cash reserves) to be in term deposits held by authorised deposit taking institutions or Treasury bonds.

The Shire seeks to engage experienced and qualified personnel in areas of high risk and provides them with appropriate ongoing training and equipment to ensure they are able to undertake their roles with minimal risk to the community and the Shire.

8.2 Certainty of Assumptions

Included in the Plan is a detailed analysis of the assumptions used as part of the planning process and the level of risk associated with each assumption.

The impact of the assumptions applied to issues identified as carrying a high risk have been separately disclosed, as has the sensitivity of movements in these assumptions on the financial forecasts set out in this Plan.

8.3 Sensitivity Analysis

Where an assessment has been made that a high level of uncertainty applies to the assumptions, sensitivity analysis has been used to help quantify the potential financial impact of a change in the assumption.

Assumptions with a high level of uncertainty and a higher dollar value present the greatest risk that a movement will result in unexpected and detrimental consequences. The details of this analysis are shown adjacent to each assumption on the following pages.

Disclosure/Assumption	Assessed Financial Risk	Impact of High Financial Risk Assumptions	Level of Uncertainty	Financial Impact and Sensitivity for Assumption with High Level of Uncertainty/Risk
Ownership of Strategic Assets: The Shire has not planned for the ownership of any strategic assets to be transferred to another party over the term of the Plan.	High	Any significant changes to the ownership of strategic assets would require an amendment to this Plan and, depending on the circumstance, be subject to community consultation.	Low	Not assessed as high level of uncertainty.
Inflators: Forecast inflation at 2.5% per annum.	Medium	Not assessed as high financial risk.	High	± \$3,899,981 to operating revenue per 1% movement in the inflators over the life of the Plan. ± \$4,999,517 to operating expenditure per 1% movement in the inflators over the life of the Plan.
Commercial Activities: The Shire has no plans to undertake a significant commercial activity during the period of the Plan.	Medium	Not assessed as high financial risk.	Low	Not assessed as high level of uncertainty.
General Economic Forecasts for State: The economic forecast for the State is closely linked to the success of the mining industry. Demands for minerals is forecast to remain stable in the short term with a corresponding stability of the state economy.	Medium	Not assessed as high financial risk.	Medium	Not assessed as high level of uncertainty.
General Economic Forecasts for Region: Historically, the region's economy is heavily dependent on mining. This remains the assumption for the term of this Plan.	Low	Not assessed as high financial risk.	Medium	Not assessed as high level of uncertainty.

10.0 Monitoring and Performance

10.1 Monitoring

The Plan will be the subject of a desktop review each year to consider changing circumstances, with a full revision scheduled every two years in line with the review of the Strategic Community Plan.

Monitoring the Shire's financial rigidity and financial position along with its asset management performance is undertaken by preparing and monitoring various statutory ratios.

10.2 Ratio Targets

A series of performance indicators, in the form of financial ratios set out in the table below, have been used to assess the financial performance of the Shire.

To maintain comparability across the industry, these ratios and their respective target ranges, have been derived from the Department's Long Term Financial Planning guidelines and *Regulation 50 of Local Government (Financial Management) Regulation 1996.*

The Department's Advisory Standard also provides target levels for each of the ratios.

Ratio	Calculation	Indication	Minimum target
Current Ratio	current assets minus restricted assets current liabilities minus liabilities associated with restricted assets minus current liabilities associated with long term borrowings	A measure of the Shire's immediate liquidity and the capacity to meet short term financial obligations from unrestricted current assets.	1.
Operating Surplus Ratio	operating revenue minus operating expense own source operating revenue	A measure of the extent to which own source revenues raised cover operational expenses.	1%
Own Source Revenue Coverage Ratio	own source operating revenue operating expense	A measure of the extent of the Shire's ability to cover costs using only discretionary revenue.	40%
Debt Service Coverage Ratio	Annual operating surplus before interest and depreciation principal and interest	A measure of the extent of the Shire's capacity to generate sufficient cash to cover debt payments.	3
Asset Consumption Ratio	depreciated replacement cost of assets current replacement cost of depreciation assets	A measure of the aged condition of the Shire's physical assets.	50%
Asset Sustainability Ratio	capital renewal and replacement expenditure depreciation expense	A measure of the extent to which assets managed by the Shire are being replaced as they reach the end of their useful lives.	90%
Asset Renewal Funding Ratio	NPV of planned capital renewals over 10 years NPV of required capital expenditure over 10 years	The Shire's financial capacity to fund asset renewal to support existing service levels. (This ratio is based on the ten years forecast expenditure and as such is only able to be calculated of the first five years of the Plan).	75%

Appendix A1 – Forecast Financial Statements

Financial Statements

The following forecast financial statements have been prepared and are included at the end of the Plan.

These forecast statements have been prepared within a framework which accords with the Australian Accounting Standards.

Statements of Comprehensive Income

Often referred to as the operating statement, it shows the revenues and expenses over the periods classified by two methods (by Program and Nature or Type) to disclose a net result.

Statement of Financial Position

More commonly referred to as the Balance Sheet, this statement discloses the forecast changes in the balance of assets and liability accounts over the periods.

Statement of Changes in Equity

This statement discloses the changes in equity over the forecast period. It shows the impact of operations on net assets and the movement in cash backed and revaluation reserves.

Statement of Cashflows

Represents the forecast cash inflows and outflows and discloses the changes to the balance of cash over the period.

Statement of Funding

A statement combining operating and capital revenues and expenses and discloses the opening and closing net current forecast surplus (deficit) funding position for each year.

Statement of Net Current Asset Composition

A statement showing how the closing estimated surplus/deficit has been calculated.

Statement of Fixed Asset Movements

A summary of the impact of the Plan on the value of fixed assets over the period. It discloses the movements in the net value of property, plant, and equipment and infrastructure.

Statement of Fixed Asset Funding

A summary of the capital expenditure by asset class and the source of funding for each class.

Forecast Ratios

The forecast ratios required by the regulations and discussed earlier under monitoring and performance.

Nature or Type

A number of statements in the Plan are disclosed using nature or type descriptors of revenue and expenditure (for example Rates and Employee Costs). This classification is in accordance with Schedule 1 of the Local Government (Financial Management) Regulation 1996.

Appendix B12 – Forecast Significant Accounting Policies

Basis of Preparation

The Long Term Financial Plan (the Plan) comprises general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the Local Government Act 1995 and accompanying regulations.

The Local Government Act 1995 and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The Local Government (Financial Management) Regulations 1996 specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this Plan have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Judgements, estimates and assumptions

The preparation of the Plan in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The Local Government Reporting Entity

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of the Plan.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the trust fund are excluded from the forecast financial statements.

Base Year Balances

Balances shown in the Plan as Base Year are as forecast at the time of preparation of the Plan and are based on the current budget and prior year annual financial reporting and may be subject to variation.

Rounding Off Figures

All figures shown in the Plan are rounded to the nearest dollar.

Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation.

Forecast Fair Value Adjustments

All fair value adjustments relating to re-measurement of financial assets at fair value through profit or loss (if any) and changes on revaluation of non-current assets are impacted upon by external forces and not able to be reliably estimated at the time preparation.

Fair value adjustments relating to the re-measurement of financial assets at fair value through profit or loss will be assessed at the time they occur and have not been estimated within the Plan.

It is anticipated, in all instances, any changes upon revaluation of non-current assets will relate to non-cash transactions and as such have been estimated as an inflation adjustment to Other Comprehensive Income, based on the value of the non-current assets forecasted to be held by the Shire.

Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Shire of Derby/West Kimberley Draft Long Term Financial Plan

Appendix B12 – Forecast Significant Accounting Policies (Continued)

Goods and Services Tax (GST) (continued)

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

Superannuation

The Council contributes to a number of superannuation funds on behalf of employees. All funds to which the Council contributes are defined contribution plans.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other shortterm highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Trade receivables are held with the objective to collect the contractual cashflows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

Inventories

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land held for resale

Land purchased for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for sale is classified as current except where it is held as non-current based on Council's intention to release for sale.

Fixed Assets

Each class of fixed assets within either property, plant and equipment or infrastructure, is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Revaluation

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Depreciation

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

An effective average depreciation rate for each class of asset has been utilised to estimate the forecast depreciation expense for each year. These are provided in the table below.

Asset Class	Effective average depreciation rate
Buildings	2.48%
Infrastructure - Roads	1.39%
Infrastructure - Footpaths	7.50%
Infrastructure – Drainage	11.00%
Infrastructure – Parks and Ovals	4.50%
Infrastructure – Airports	5.00%
Infrastructure – Derby Wharf	4.41%
Infrastructure – Other	5.26%
Plant and Equipment	7.95%

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Shire of Derby/West Kimberley Draft Long Term Financial Plan

Appendix A12 – Forecast Significant Accounting Policies (Continued)

Gains and Losses on Disposal

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

Employee Benefits

The Shire's obligations for employees' annual leave, long service leave and isolation leave entitlements are recognised as provisions in the statement of financial position.

Short-Term Employee Benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position.

Other Long-Term Employee Benefits

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

Provisions

Provisions are recognised when the Shire has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Current and Non-Current Classification

An asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.
