BACKGROUND

Pursuant to section 6.4 of the *Local Government Act 1995* and regulation 34(4) of the *Local Government (Financial Management) Regulations 1996* (the Regulations), a Local Government is to prepare, on a monthly basis, a statement of financial activity that reports on the Shire's financial performance in relation to its adopted/amended budget.

The Shires Financial Reports are produced in accordance with the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996* as amended. Regulation 34 of the *Local Government (Financial Management) Regulations 1996* requires that Local Governments produce a monthly statement of financial activity and such other supporting information as is considered relevant by the Local Government.

The Shires financial reporting framework provides Council, management and employees with a broad overview of the Shire's wide financial position.

STATUTORY ENVIRONMENT

34. Financial activity statement required each month (Act s. 6.4)

 - (a) *annual budget estimates, taking into account any expenditure incurred for an additional purpose under section 6.8(1)(b) or (c); and*
 - (b) *budget estimates to the end of the month to which the statement relates; and*
 - (c) *actual amounts of expenditure, revenue and income to the end of the month to which the statement relates; and*

- (d) material variances between the comparable amounts referred to in paragraphs (b) and (c); and*
- (e) the net current assets at the end of the month to which the statement relates.*
 - (2) Each statement of financial activity is to be accompanied by documents containing —*
 - (a) an explanation of the composition of the net current assets of the month to which the statement relates, less committed assets and restricted assets; and*
 - (b) an explanation of each of the material variances referred to in subregulation (1)(d); and*
 - (c) such other supporting information as is considered relevant by the Local Government.*

 - (c) by business unit.*
 - (4) A statement of financial activity, and the accompanying documents referred to in subregulation (2), are to be —*
 - (a) presented at an ordinary meeting of the Council within 2 months after the end of the month to which the statement relates; and*
 - (b) recorded in the minutes of the meeting at which it is presented.*

RISK MANAGEMENT CONSIDERATIONS

RISK	LIKELIHOOD	CONSEQUENCE	RISK ANALYSIS	MITIGATION
<p>Financial:</p> <p>The Shire is exposed to a number of financial risks. Most of these risks exist in respect to recurrent revenue streams which are required to meet current service levels. Any reduction in these revenue streams into the future is likely to have an impact on the Shire's ability to meet service levels or asset renewal funding requirements, unless the Shire can replace this revenue or alternatively reduce costs.</p>	Possible	Major	High	Risk assessments have been completed in relation to a number of higher level financial matters. The timely and accurate completion of monthly financial reporting enabling Council to make fully informed decisions is a control that assists in addressing this risk.

CONSULTATION

Internal consultation within the Corporate Services Department.

External consultation with Moore Stephens.

In accordance with section 6.2 of the *Local Government Act 1995*, the annual budget was prepared having regard to the Strategic Community Plan, prepared under section 5.56 of the *Local Government Act 1995*.

**MONTHLY FINANCIAL REPORT
FOR THE PERIOD ENDED 30 JUNE 2022**

BASIS OF PREPARATION

BASIS OF PREPARATION

The financial report has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 14 to these financial statements.

SIGNIFICANT ACCOUNTING POLICES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

PREPARATION TIMING AND REVIEW

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

KEY INFORMATION

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee benefits

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

Council 25/11/2021	Hartley, Neil Dexter, Amanda	Matters for which the Meeting May Be Closed (Confidential)	Derby Jetty - Insurance and Related Considerations

RESOLUTION 159/21

Moved: Cr Paul White
Seconded: Cr Geoff Davis

That Council:

- Accepts the position offered by Kimberley Ports Authority that the Derby Jetty can be insured for \$5.6m on the basis that in the event of a catastrophic event which destroyed the jetty, the jetty would not be reinstated or replaced utilising the existing design and specifications, and the intent would be to clear the site and reinstate a small recreational jetty (due to the change in demand and utilisation since the Jetty was first built);**
- Understands that any costs above the insured level would be the responsibility of the Shire to bear, and asks that the Chief Executive Officer arrange for engineering studies to be sought to confirm the most prudent level of insurance that should be set, such that removal of debris/clean-up can be undertaken, and construction/reinstatement of a small recreational jetty to replace the existing structure can be achieved, without there being any undue risk of excess costs resulting.**

Outstanding	Division:	Date From:
Action Sheets Report	Committee:	Date To:
	Officer:	Printed: 15 July 2022 4:09 PM

3. Confirms the need to maintain current levels of insurance levels (until 2023 when the MPA Fish Farms Lease is due to expire) unless legal advice is obtained that reasonably allows the changes to be brought in earlier;
4. Notes that the eventual lease renegotiations with Kimberley Mineral Sands will need to accommodate a mutually agreed position on jetty insurance;
5. Requires the Chief Executive Officer to pursue the implementation of a Deed to suitably modify the insurance clauses of the Head Lease (from "replacement", to a "removal of debris/clean up only" clause);
6. Requires that any future Derby Port/Jetty Leases provide clarity on the Shire's capacity going forward to undertake Jetty maintenance or replacement, and that the Shire's position be suitably protected;
7. Requires that a Derby Port Masterplan workshop be scheduled with Councillors, to outline options available for the sustainable operation of the Derby Port; and
8. Requires that a review of Derby Jetty fees/charges be undertaken and a report be presented to Council on the options available to it.
