BACKGROUND

Pursuant to section 6.4 of the *Local Government Act 1995* and regulation 34(4) of the *Local Government (Financial Management) Regulations 1996* (the Regulations), a Local Government is to prepare, on a monthly basis, a statement of financial activity that reports on the Shire's financial performance in relation to its adopted/amended budget.

The Shires Financial Reports are produced in accordance with the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996* as amended. Regulation 34 of the *Local Government (Financial Management) Regulations 1996* requires that Local Governments produce a monthly statement of financial activity and such other supporting information as is considered relevant by the Local Government.

The Shires financial reporting framework provides Council, management and employees with a broad overview of the Shire's wide financial position.

STATUTORY ENVIRONMENT

In accordance with the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996*, a Statement of Financial Activity is required to be presented to Council as a minimum requirement.

In accordance with Regulation 34 (5) of the *Local Government (Financial Management) Regulations 1996*, a report must be compiled on variances greater than the materiality threshold adopted by Council of \$30,000 or 10% whichever is the greater. COMMENT

This is a monthly process advising Council of the current financial position of the Shire.

Financial integrity is essential to the operational viability of the Shire but also as the custodian of community assets and service provision. An ability to monitor and report on financial operations, activities and capital projects is imperative to ensure that financial risk is managed at acceptable levels of comfort.

The ability for the Shire to remain financially sustainable is a significant strategy for a region that is continually under pressure from the pastoral industry, private enterprise and State Government obligations for the ongoing development of infrastructure and services.

Any material variances are highlighted in the Operating Statement and included by way of note to the Operating Statement (as attached)

Attached to the Agenda is a copy of:

**MONTHLY FINANCIAL REPORT
FOR THE PERIOD ENDED 31 DECEMBER 2022**

BASIS OF PREPARATION

BASIS OF PREPARATION

This financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 12 to these financial statements.

SIGNIFICANT ACCOUNTING POLICIES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities not readily apparent from other sources.

Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimation of fair values of certain financial assets
- estimation of fair values of fixed assets shown at fair value
- impairment of financial assets

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

SIGNIFICANT ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.

Initial recognition and measurement between mandatory revaluation dates for assets held at fair value

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

All debenture repayments were financed by general purpose revenue.

The Shire has no unspent debenture funds as at 30th June 2021, nor is it expected to have unspent funds as at 30th June 2022.

KEY INFORMATION

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Non-current borrowings fair values are based on discounted cash flows using a current borrowing rate.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

BACKGROUND

Pursuant to section 6.4 of the *Local Government Act 1995* and regulation 34(4) of the *Local Government (Financial Management) Regulations 1996* (the Regulations), a Local Government is to prepare, on a monthly basis, a statement of financial activity that reports on the Shire's financial performance in relation to its adopted/amended budget.

The Shires Financial Reports are produced in accordance with the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996* as amended. Regulation 34 of the *Local Government (Financial Management) Regulations 1996* requires that Local Governments produce a monthly statement of financial activity and such other supporting information as is considered relevant by the Local Government.

The Shires financial reporting framework provides Council, management and employees with a broad overview of the Shire's wide financial position.

STATUTORY ENVIRONMENT

In accordance with the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996*, a Statement of Financial Activity is required to be presented to Council as a minimum requirement.

Section 6.4 of the *Local Government Act 1995* provides for the preparation of financial reports.

In accordance with Regulation 34 (5) of the *Local Government (Financial Management) Regulations 1996*, a report must be compiled on variances greater than the materiality threshold adopted by Council of \$30,000 or 10% whichever is the greater. COMMENT

This is a monthly process advising Council of the current financial position of the Shire.

Financial integrity is essential to the operational viability of the Shire but also as the custodian of community assets and service provision. An ability to monitor and report on financial operations, activities and capital projects is imperative to ensure that financial risk is managed at acceptable levels of comfort.

The ability for the Shire to remain financially sustainable is a significant strategy for a region that is continually under pressure from the pastoral industry, private enterprise and State Government obligations for the ongoing development of infrastructure and services.

Any material variances are highlighted in the Operating Statement and included by way of note to the Operating Statement (as attached)

**MONTHLY FINANCIAL REPORT
FOR THE PERIOD ENDED 31 JANUARY 2023**

BASIS OF PREPARATION

BASIS OF PREPARATION

This financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 12 to these financial statements.

SIGNIFICANT ACCOUNTING POLICES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities not readily apparent from other sources.

Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimation of fair values of certain financial assets
- estimation of fair values of fixed assets shown at fair value
- impairment of financial assets

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

SIGNIFICANT ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.

Initial recognition and measurement between

mandatory revaluation dates for assets held at fair value

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

The Shire has no unspent debenture funds as at 30th June 2022, nor is it expected to have unspent funds as at 30th June 2023.

KEY INFORMATION

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Non-current borrowings fair values are based on discounted cash flows using a current borrowing rate.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

SUMMARY

For Council to consider and accept the 2022-23 Mid-Year Budget Review.

DISCLOSURE OF ANY INTEREST

Nil by Author and Responsible Officer.

BACKGROUND

Local governments are required by regulation 33A of the *Local Government (Financial Management) Regulations 1996* to conduct a budget review between 1 January and 31 March each financial year. This report presents an indicative summary of the 2022-23 mid-year budget review.

The review is an opportunity to reevaluate the current budget and allocate funding for emerging community and social priorities, allowing the organisation to respond and provide the best result for the Shire.

There are other factors and urgent matters that affect the operational activities and revenue streams which have resulted in budget variations and are discussed further in this report.

Budget reviews provide a tool for decision making for current and future activities and they are a key component of prudent financial management practices in order to mitigate financial risk exposure to Council. In conjunction to compliance with legislation, the review aims to reconsider all budget items and review them by taking into account any changes in the macro or minor economic variables and any other relevant information.

STATUTORY ENVIRONMENT

Local Government Act 1995

6.8. Expenditure from municipal fund not included in annual budget

(1) A local government is not to incur expenditure from its municipal fund for an additional purpose except where the expenditure —

(a) is incurred in a financial year before the adoption of the annual budget by the local government; or

(b) is authorised in advance by resolution; or*

(c) is authorised in advance by the mayor or president in an emergency.

** Absolute majority required.*

Local Government (Financial Management) Regulations 1996 33A. Review of budget

Local Government (Financial Management) Regulations 1996

33A. Review of budget

(1) Between 1 January and 31 March in each financial year a local government is to carry out a review of its annual budget for that year.

(2A) The review of an annual budget for a financial year must —

- (a) consider the local government’s financial performance in the period beginning on 1 July and ending no earlier than 31 December in that financial year; and
- (b) consider the local government’s financial position as at the date of the review; and
- (c) review the outcomes for the end of that financial year that are forecast in the budget.

(2) Within 30 days after a review of the annual budget of a local government is carried out it is to be submitted to the council.

(3) A council is to consider a review submitted to it and is to determine* whether or not to adopt the review, any parts of the review or any recommendations made in the review.

*Absolute majority required.

(4) Within 30 days after a council has made a determination, a copy of the review and determination is to be provided to the Department.

[Regulation 33A inserted: Gazette 31 Mar 2005 p. 1048-9; amended: Gazette 20 Jun 2008 p. 2723- 4.]

POLICY IMPLICATIONS

FINANCIAL IMPLICATIONS

The Budget Review has identified areas of over and underspend, with minimal effect on the bottom line of the Budget. However, figures presented in this report are indicative and subject to change following further review and prioritisation. Further detailed analysis will be undertaken over the next few months during the formulation of the 2023/24 Annual Budget and any areas requiring Councils attention will be referred to the next scheduled Ordinary Council Meeting.

COMMENT

The focus of the 2022-23 mid-year Budget Review has been to consider any changes in Council’s operating environment since the beginning of the financial year with a view to forecasting the financial impacts likely to arise for the remainder of the financial year and make a determination in relation to prevailing economic conditions and the most likely impact on the Council’s financial position.

Annual budgets are by nature predictions of what will happen during the term of the budget. Although budgets are carefully prepared, unexpected circumstances and external influences result in the need to review the proposed activities during the entire budget term.

Council needs to ensure there is sufficient operational capacity to deliver the services and budget programs as set out in the adopted 2022-23 budget and accommodate events and issues that have arisen since budget adoption.

Future monitoring is required and further budget adjustments may be required later in the financial year to ensure Council is prepared for the 2023/24 budget process and at 30 June 2023. Council will have the opportunity, to allocate the surplus funds accordingly once the final position and cash flow is confirmed.

VOTING REQUIREMENT

**SHIRE OF DERBY-WEST KIMBERLEY
NOTES TO AND FORMING PART OF THE BUDGET REVIEW REPORT
FOR THE PERIOD ENDED 31 JANUARY 2023**

1. BASIS OF PREPARATION

The budget review comprises financial statements which have been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Local Government (Financial Management) Regulations 1996 prescribe that the budget review be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from *AAASB 16* which would have required the Shire of Derby-West Kimberley to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this budget review have been consistently applied unless stated otherwise. Except for rate setting information, the budget review has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Financial reporting disclosures in relation to assets and liabilities required by the Australian Accounting Standards have not been made unless considered important for the understanding of the budget review or required by legislation.

The local government reporting entity

All funds through which the Shire of Derby-West Kimberley controls resources to carry on its functions have been included in the financial statements forming part of this budget review.

All monies held in the Trust Fund are excluded from the financial statements.

Rounding off figures

All figures shown in this budget review are rounded to the nearest dollar.

2022-23 actual balances

Balances shown in this budget review report as YTD Actual are as forecast at the time of budget review preparation and are subject to final adjustments.

Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in the budget review relate to the original budget estimate for the relevant item of disclosure.

Judgements, estimates and assumptions

The preparation of the annual budget review in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimated fair value of certain financial assets
- estimation of fair values of land and buildings and investment property
- impairment of financial assets
- estimation uncertainties and judgements made in relation to lease accounting
- estimated useful life of assets

Liquidity Over the Year

SHIRE OF DERBY-WEST KIMBERLEY
NOTES TO THE BUDGET REVIEW REPORT
FOR THE PERIOD ENDED 31 JANUARY 2023

3 COMMENTS/NOTES - NET CURRENT FUNDING POSITION (CONTINUED)

SIGNIFICANT ACCOUNTING POLICIES

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities.

FINANCIAL ASSETS AT AMORTISED COST

The Shire of Derby-West Kimberley classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

TRADE AND OTHER RECEIVABLES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Trade receivables are held with the objective to collect the contractual cashflows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire of Derby-West Kimberley applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

INVENTORIES

General

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

CONTRACT ASSETS

A contract asset is the right to consideration in exchange for goods or services the entity has transferred to a customer when that right is conditioned on something other than the passage of time.

CURRENT AND NON-CURRENT CLASSIFICATION

An asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire of Derby-West Kimberley's operational cycle. In the case of liabilities where the Shire of Derby-West Kimberley does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire of Derby-West Kimberley's intentions to release for sale.

TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the Shire of Derby-West Kimberley prior to the end of the financial year that are unpaid and arise when the Shire of Derby-West Kimberley becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

PREPAID RATES

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire of Derby-West Kimberley recognises revenue for the prepaid rates that have not been refunded.

EMPLOYEE BENEFITS

Short-Term Employee Benefits

Provision is made for the Shire of Derby-West Kimberley's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire of Derby-West Kimberley's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current of financial trade and other payables in the statement position. Shire of Derby-West Kimberley's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

PROVISIONS

Provisions are recognised when the Shire of Derby-West Kimberley has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

CONTRACT LIABILITIES

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to be controlled by the Shire of Derby-West Kimberley are recognised as a liability until such time as the Shire of Derby-West Kimberley satisfies its obligations under the agreement.

7.6 COMPLIANCE AUDIT RETURN - 2022**File Number: 4110****Author: Jamie Bone, Senior Governance Officer****Responsible Officer: Amanda Dexter, Chief Executive Officer****Authority/Discretion: Executive****SUMMARY**

The Audit Committee is requested to review the results of the Compliance Audit Return (CAR) for 2022.

A recommendation is made to adopt the Compliance Audit Return for 2022 and authorise the President and Chief Executive Officer to certify the Return so that it may be submitted with the Department of Local Government by the due date of 31 March 2023.

DISCLOSURE OF ANY INTEREST

Nil by Author and Responsible Officer.

BACKGROUND

Each year the Department of Local Government, Sport and Cultural Industries (DLGSC) issues the CAR that covers a sample of legislative provisions required under the provisions of the *Local Government Act 1995*, and which is required to be completed by staff and endorsed by Council prior to submission.

The CAR for 2022 covers 11 different categories (see list below) and 94 questions in total, with each category having between 2 and 25 questions:

- Commercial Enterprises by Local Govt.
- Delegation of Power/Duty
- Disclosure of Interest
- Disposal of Property
- Elections
- Finance
- Integrated Planning and Reporting
- Local Government Employees
- Official Conduct
- Tenders for Providing Goods and Services
- Optional Questions

The 2022 CAR was made available to local government authorities by the DLGSC via a centralised temporary online portal. The structure of the CAR is similar to previous years with a focus on areas of compliance considered high risk.

In accordance with the *Local Government Act 1995* and *Local Government (Audit) Regulations 1996*, a local government is required to complete a CAR for the period 1 January to 31 December each year (in this case 2022).

The CAR is to be completed and submitted to the DLGSC by no later than 31 March each year (after being presented to the Audit Committee and endorsed by Council).

The aim of the CAR is to build good governance by promoting and enforcing compliance, and to encourage all local governments to progressively move beyond minimum compliance through continuous improvement.

While 100% compliance is always the goal, the location of non-compliances provides an opportunity to fine-tune processes, and reinforce the need for vigilance to legislative compliance.

As part of the 2022 audit, three areas of non-compliance were located (as outlined below).

Compliance Requirement	Organisational Response
Was a primary return in the prescribed form lodged by all relevant persons within three months of their start day?	One employee submitted their return outside of the three month requirement. As required in these circumstances, the matter was referred to the Corruption and Crime Commission of Western Australia which after their inquiries, an outcome of “No further action” was required.
Was the auditor’s report for the financial year ended 30 June 2022 received by the Local Government by 31 December 2022?	Delay in formalising the audit by both the Shire of Derby / West Kimberley and Auditor’s. Final audit report, management letter and exit interview scheduled for March 2023.
Did the local government prepare a report on the training completed by council members in the 2021/2022 financial year and publish it on the local government’s official website by 31 July 2022?	Report was unable to be completed by the deadline of 31 July 2022. Process reminder put in place, but staff resources were insufficient to enable the task to be completed. Responsibility for the ongoing task has been reallocated to the Shire of Derby / West Kimberley’s Governance Team to undertake going forward.

A copy of the 2022 CAR, inclusive of the Shire’s responses is attached to this report.

STATUTORY ENVIRONMENT

Local Government Act 1995 s 7.13 (Regulations as to Audits)

Require Local Governments to carry out an audit of compliance.

Local Government (Audit) Regulations 1996 r 14 (Compliance audits by local governments)

Require Local Governments to carry out a compliance audit for the period 1 January to 31 December in each year.

After carrying out the compliance audit, the Local Government is to prepare the CAR in a form approved by the minister.

The Local Governments Audit Committee is to review the CAR and is to report to the Local Governments Council the results of that review.

Following adoption by Council, the CAR is then to be forwarded to the DLGSC in the approved format no later than 31 March. The submission of the CAR to the DLGSC is to be accompanied by the relevant section of the Council minutes, plus any additional information explaining or qualifying the CAR.

The CAR is to be signed by the President and the CEO prior to submission to the DLGSC.

POLICY IMPLICATIONS

There are no policy implications to be considered as part of this recommendation.

FINANCIAL IMPLICATIONS

Resource requirements available to allocate to governance compliance are limited by the annual budget and competing organisational and strategic priorities. There are no perceived financial implications arising from the officer's recommendation, but constant vigilance to providing sufficient time and training to officers, will ensure ongoing good levels of governance and compliance can be maintained.

While not specifically measured, it is understood that officers relevant to each category of the Audit Return have spent approximately 35 hours in total, working to complete it and present this report to the Audit Committee.

CONSULTATION

No community consultation is required on this matter. A number of officers who have compliance responsibility relevant to the CAR were consulted. Source documents including minutes of meetings, declarations of interest, annual and primary returns, tender documents, resolutions of Council, and public notices, were all utilised in evidencing the Shire’s compliance with the requirements of the CAR. Guidance has been communicated by the DLGSC via government circulars and guidelines.

COMMENT

The CAR process is time consuming, but a valuable internal auditing tool to ensure compliance not only occurs, but that the significance of compliance is reinforced throughout the organisation.

Notwithstanding the extensive nature of the audit, there were only three areas of non-compliance located by officers that the Shire was responsible for. The Shire has fine-tuned their processes in relation to the breaches as outlined in the table, ensuring the breaches are rectified and prevented from occurring in the future.

Three question identifying a breach out of the 94 that the Shire was responsible for, reflects a compliance rate of 97%, compared with the rates for 2019 - 2022 CARs of 93%, 97%, and 99% respectively.

It should be noted, there was a significant decrease in Officer’s hours to undertake the 2022 CAR (35 hours) when compared to the undertaking of the 2021 CAR, which was approximately 100 hours in total. This is directly attributed to the Shire’s Governance Team with support from their Executive in implementing training, systems and process around governance and compliance related activities.

Officers will continue to work towards meeting all compliance requirements, and with the benefit of ongoing systems/procedures development, this will assist with the management and reporting of information, it is hoped that further improvements to compliance can be achieved over future years.

Council 25/11/2021	Hartley, Neil Dexter, Amanda	Matters for which the Meeting May Be Closed (Confi)	Derby Jetty - Insurance and Related Considerations

RESOLUTION 159/21

Moved: Cr Paul White

Seconded: Cr Geoff Davis

That Council:

- 1. Accepts the position offered by Kimberley Ports Authority that the Derby Jetty can be insured for \$5.6m on the basis that in the event of a catastrophic event which destroyed the jetty, the jetty would not be reinstated or replaced utilising the existing design and specifications, and the intent would be to clear the site and reinstate a small recreational jetty (due to the change in demand and utilisation since the Jetty was first built);**
- 2. Understands that any costs above the insured level would be the responsibility of the Shire to bear, and asks that the Chief Executive Officer arrange for engineering studies to be sought to confirm the most prudent level of insurance that should be set, such that removal of debris/clean-up can be undertaken, and construction/reinstatement of a small recreational jetty to replace the existing structure can be achieved, without there being any**

undue risk of excess costs resulting.

- 3. Confirms the need to maintain current levels of insurance levels (until 2023 when the MPA Fish Farms Lease is due to expire) unless legal advice is obtained that reasonably allows the changes to be brought in earlier;**
- 4. Notes that the eventual lease renegotiations with Kimberley Mineral Sands will need to accommodate a mutually agreed position on jetty insurance;**
- 5. Requires the Chief Executive Officer to pursue the implementation of a Deed to suitably modify the insurance clauses of the Head Lease (from “replacement”, to a “removal of debris/clean up only” clause);**
- 6. Requires that any future Derby Port/Jetty Leases provide clarity on the Shire’s capacity going forward to undertake Jetty maintenance or replacement, and that the Shire’s position be suitably protected;**
- 7. Requires that a Derby Port Masterplan workshop be scheduled with Councillors, to outline options available for the sustainable operation of the Derby Port; and**
- 8. Requires that a review of Derby Jetty fees/charges be undertaken and a report be presented to Council on the options available to it.**

Derby Airport - Lease to Frontier Helicopters (Area #18)

Dexter, Amanda

RESOLUTION 101/22

Moved: Cr Geoff Davis

Seconded: Cr Geoff Haerewa

That Council takes the following position in regard to the Frontier Helicopter (Derby Airport Area #18) lease:

- 1. Endorse the establishment of a new lease over Derby Airport Lease Area #18 on the following general conditions:**
 - a. Lessee to be Frontier Helicopters Pty Ltd (under new ownership);**
 - b. 10+10 year term;**
 - c. Subject to #2 below, a commencing annual rental of \$15,304.68 (+GST and adjusted annually by CPI/market review),**
 - d. The lease area to be in full compliance with all relevant legislate (e.g. planning permit and building licences);**
 - e. All fuel storage be removed from the site or be in accordance with lease conditions;**
 - f. May include the temporary assignment of the existing lease until the new lease is in position and may require that the existing lease to remain in place in "holding over" mode, until the new lease takes effect; and**
 - g. The Lessee being required to meet the legal and other costs of the preparation of the Deed of Lease Extension, including the lodgement of a deposit**

- on these costs of \$8,000;**
- 2. Notes that through S. 3.58 (4)(c)(ii) of the Local Government Act, Council has thus far utilised a 11 October 2021 valuation, which was carried out more than 6 months before the proposed disposition, and whilst it believes it to still be a true indicator of the rental value, if the new (July/August 2022) valuation sought does provide for a higher rental sum, then that new valuation figure is to be utilised as the commencing lease fee referred to in (1c) above;**
 - 3. Notes that the public advertising process for S. 3.58 has occurred, with no objections received;**
 - 4. Authorises the President and Chief Executive Officer to execute the necessary documentation and apply the Shire’s Common Seal (if required); and**
 - 5. The CEO be required to manage (1d) and (1e) above, including progressing the voiding of the lease if the lessee fails to comply with these requirements within a reasonable period of time as determined by the CEO.**

RESOLUTION 150/22**Moved: Cr Paul White****Seconded: Cr Andrew Twaddle**

This recommendation was changed and workshopped by Council at the 24 November 2022 Ordinary Council Meeting and is now put for consideration.

That Council:

- 1. Express its appreciation to the Shire's Fitzroy Crossing staff for endeavouring to maintain a workable service to the Fitzroy Crossing community, notwithstanding the extremely difficult circumstances that presently prevails in that location, and express its empathy to staff and their families for any physical and psychological violence or stress suffered by them as a direct consequence of elevated violence within the Fitzroy Crossing community; Council accepts that it needs to take appropriate actions to protect its employees;**
- 2. The actions of the Chief Executive Officer to immediately close the Fitzroy Crossing Administration & Visitors Centre to the public are to remain in place, until such time that a safe work environment consistent with the expectations of the Work Health and Safety Act 2020 can be provided for the Shire's staff;**
- 3. Notes that in regard to (2), the Shire's customer services will be provided by appointment, other arrangement or via remote access where that is available;**
- 4. Notes that the WA State Government has a direct responsibility through the WA Police force's Policing Pillars to maintain a safe environment in Fitzroy Crossing, the Shire considers the situation in Fitzroy Crossing to be akin to an "Emergency Situation" and therefore requires WA Police to more satisfactorily meet those responsibilities, particularly the following key pillars not being maintained to date:**

 - (b) Pillar #2 - Prevent Crime;**
 - (c) Pillar #3 - Manage and Coordinate Emergencies - Coordinate multi-agency approaches to manage emergencies.**
- 5. Funds to be allocated at the Chief Executive Officer's discretion so as to maximise safety but in**

a suitably cost conscious manner, reported monthly to council;

6. Requires the President and CEO to immediately and actively engage with the WA State Government Agencies to:

(a) secure additional Police and other government resources for Fitzroy Crossing;

(b) secure State Government grant funds to meet the costs outlined in (5); and

(c) secure the necessary State (and Federal) Government services to address the existing issues within Fitzroy Crossing and to have those services remain until community concerns are addressed to meet community expectations;

7. Requires that the President and the CEO actively engage the media in all of its forms and across the widest practical levels, to draw to the attention of Fitzroy Crossing stakeholders that the Council is actively engaging in strategic discussions, taking direct action where it can, and redirecting its limited resource capacities to addressing the situation. Also, to highlight the Shire is actively engaging with the WA State Government to directly assist with addressing the issues within Fitzroy Crossing; and

8. Requires that the President and CEO arrange for suitable public consultation to occur in the district, to invite contributions from relevant stakeholders, particularly the local community and government agencies.
