

AF1 – PROCUREMENT OF GOODS AND SERVICES

1. PURCHASING

The Shire of Derby/West Kimberley (the **Shire**) is committed to delivering the objectives, principles and practices outlined in this Policy, when purchasing goods, services or works to achieve the Shire's strategic and operational objectives.

This policy complies with the Local Government (Functions and General) Regulations 1996 (The Regulations).

1.1 OBJECTIVES

The Shire's purchasing activities will achieve:

- The attainment of best value for money;
- Sustainable benefits, such as environmental, social and local economic factors are considered in the overall value for money assessment;
- Consistent, efficient and accountable processes and decision-making;
- Fair and equitable competitive processes that engage potential suppliers impartially, honestly and consistently;
- Probity and integrity, including the avoidance of bias and of perceived and actual conflicts of interest;
- Compliance with the Local Government Act 1995, Local Government (Functions and General) Regulations 1996, as well as any relevant legislation, Codes of Practice, Standards and the Shire's Policies and procedures;
- Risks identified and managed within the Shire's Risk Management framework;
- Records created and maintained to evidence purchasing activities in accordance with the State Records Act and the Shire's Record Keeping Plan;
- Confidentiality protocols that protect commercial-in-confidence information and only release information where appropriately approved.

1.2 ETHICS & INTEGRITY

The Shire's Code of Conduct applies when undertaking purchasing activities and decision making. Elected Members and employees must observe the highest standards of ethics and integrity and act in an honest and professional manner at all times.

1.3 VALUE FOR MONEY

Value for money is achieved through the critical assessment of price, risk, timeliness, environmental, social, economic and qualitative factors to determine the most advantageous supply outcome that contributes to the Shire achieving its strategic and operational objectives.

The Shire will apply value for money principles when assessing purchasing decisions and acknowledges that the lowest price may not always be the most advantageous.

1.3.1 Assessing Value for Money

Assessment of value for money will consider:

- All relevant Total Costs of Ownership (TCO) and benefits including transaction costs associated with acquisition, delivery, distribution, as well as other costs such as but not limited to holding costs, consumables, deployment, training, maintenance and disposal;
- The technical merits of the goods or services being offered in terms of compliance with specifications, contractual terms and conditions and any relevant methods of assuring quality. This includes but is not limited to an assessment of compliances, tenderers resources available, capacity and capability, value-adds offered, warranties, guarantees, repair and replacement policies, ease of inspection, ease of after sales service, ease of communications etc.
- Financial viability and capacity to supply without the risk of default (competency of the prospective suppliers in terms of managerial and technical capabilities and compliance history);
- A strong element of competition by obtaining a sufficient number of competitive quotations wherever practicable and consistent with this Policy;
- The safety requirements and standards associated with both the product design and the specification offered by suppliers and the evaluation of risk arising from the supply, operation and maintenance;
- The environmental, economic and social benefits arising from the goods, services or works required, including consideration of these benefits in regard to the supplier's operations, in accordance with this Policy and any other relevant Shire Policy; and
- Providing opportunities for businesses within the Shire's boundaries to quote wherever possible.

1.4 PURCHASING THRESHOLDS AND PRACTICES

The Shire must comply with all requirements, including purchasing thresholds and processes, as prescribed within the Regulations, this Policy and associated purchasing procedures in effect at the Shire.

1.4.1. Policy Purchasing Value Definition

Purchasing value for a specified category of goods, services or works is to be determined upon the following considerations:

- Exclusive of Goods and Services Tax (GST); and
- Where a contract is in place, the actual or expected value of expenditure over the full contract period, including all options to extend specific to a particular category of goods, services or works. OR
- Where there is no existing contract arrangement, the Purchasing Value will be the estimated total expenditure for a category of goods, services or works over a minimum three year period. This period may be extended to a maximum of 3 years only where the supply category has a high risk of change i.e. to technology, specification, availability or the Shire's requirements (Regulation 12).

The calculated estimated Purchasing Value will be used to determine the applicable threshold and purchasing practice to be undertaken.

1.4.2. Purchasing from Existing Contracts

The Shire will ensure that any goods, services or works required that are within the scope of an existing contract will be purchased under that contract.

1.4.3. Table of Purchasing Thresholds and Practices

This table prescribes Purchasing Value Thresholds and the applicable purchasing practices which apply to the Shire's purchasing activities:

1.4.4. Exemptions

An exemption from the requirement to publically invite tenders may apply when the purchase is:

- obtained from a pre-qualified supplier under the WALGA Preferred Supplier Arrangement or other suppliers that are accessible under another tender exempt arrangement .
- from a pre-qualified supplier under a Panel established by the Shire;
- from a Regional Local Government or another Local Government;
- acquired from a person/organisation registered on the WA Aboriginal Business Directory, as published by the Small Business Development Corporation, where the consideration under contract is worth \$250,000 or less (exc GST) and represents value for money;
- acquired from an Australian Disability Enterprise and represents value for money;
- the purchase is authorised under action by Council under delegated authority;
- within 6 months of no tender being accepted;
- where the contract is for petrol, oil, or other liquid or gas used for internal combustion engines; or
- the purchase is covered by any of the other exclusions under Regulation 11 of the Regulations.

1.4.5. Inviting Tenders Under the Tender Threshold

The Shire may determine to invite Public Tenders, despite the estimated Purchase Value being less than the \$250,000 threshold.

This decision will be made after considering:

- Whether the purchasing requirement can be met through the WALGA Preferred Supplier Program or any other tender exemption arrangement; and
- Any value for money benefits, timeliness, risks; and
- Compliance requirements.

A decision to invite Tenders, though not required to do so, may occur where an assessment has been undertaken and it is considered that there is benefit from conducting a publicly accountable and more rigorous process. In such cases, the Shire's tendering procedures must be followed in full.

1.4.6. Other Procurement Processes

1.4.6.1 Expressions of Interest

Expressions of Interest (EOI) are typically considered in situations where the project is of a significant value, or contains significant complexity of project delivery that may solicit responses from a considerable range of industry providers.

In these cases, the Shire may consider conducting an EOI process, preliminary to any Request for Tender process, where the purchasing requirement is:

- Unable to be sufficiently scoped or specified;
- Open to multiple options for how the purchasing requirement may be obtained, specified, created or delivered;
- Subject to a creative element; or

- To establish a procurement methodology that allows for an assessment of a significant number of tenderers leading to a shortlisting process based on non-price assessment.

All EOI processes are conducted as a public process and similar rules to a Request for Tender apply. However, the EOI should not seek price information from respondents, seeking qualitative and other non-price information only. All EOI processes should be subsequently followed by a Request for Tender through an invited process of those shortlisted under the EOI.

1.4.6.2 Request for Proposal

As an alternative to a Request for Tender, the Shire may consider conducting a Request for Proposal where the requirements are less known, or less prescriptive and detailed. In this situation, the Request For Proposal would still be conducted under the same rules as for a Request For Tender but would seek responses from the market that are outcomes based or that outline solutions to meet the requirements of the Shire.

1.4.7. Emergency Purchases

An emergency purchase is defined as an unanticipated purchase which is required in response to an emergency situation as provided for in the Act. In such instances, quotes and tenders are not required to be obtained prior to the purchase being undertaken.

Time constraints are not a justification for an emergency purchase. Every effort must be made to anticipate purchases in advance and to allow sufficient time to obtain quotes and tenders, whichever may apply.

1.4.8. Sole Source of Supply

A sole source of supply arrangement may only be approved where the:

- Purchasing value is estimated to be over \$5,000; and
- purchasing requirement has been documented in a detailed specification; and
- specification has been extensively market tested and only one potential supplier has been identified as being capable of meeting the specified purchase requirement; and
- market testing process and outcomes of supplier assessments have been documented, inclusive of a rationale for why the supply is determined as unique and cannot be sourced through more than one supplier.

A sole source of supply arrangement will only be approved for a period not exceeding three (3) years. For any continuing purchasing requirement, the approval must be re-assessed before expiry to evidence that a Sole Source of Supply still genuinely exists.

1.4.9. Anti-Avoidance

The Shire will not conduct multiple purchasing activities with the intent (inadvertent or otherwise) of "splitting" the purchase value or the contract value, avoiding a particular purchasing threshold or the need to call a Public Tender. This includes the creation of two or more contracts or creating multiple purchase order transactions of a similar nature.

Utilising rolling contract extensions at the end of a contract term without properly testing the market or using a Tender exempt arrangement, will not be adopted as this would place this Local Government in breach of the Regulations (Regulation 12).

The Shire will conduct regular periodic analysis of purchasing activities within supply categories and aggregating expenditure values in order to identify purchasing activities which can be more appropriately undertaken within the Purchasing Threshold practices detailed in clause 1.4.3 above.

2. SUSTAINABLE PROCUREMENT

The Shire is committed to implementing sustainable procurement by providing a preference to suppliers that *demonstrate* sustainable business practices (social advancement, environmental protection and local economic benefits).

The Shire will embrace Sustainable Procurement by applying the value for money assessment to ensure that wherever possible our suppliers demonstrate outcomes which contribute to improved environmental, social and local economic outcomes. Sustainable Procurement can be demonstrated as being internally focussed (i.e. operational environmental efficiencies or employment opportunities and benefits relating to special needs), or externally focussed (i.e. initiatives such as corporate philanthropy).

Requests for Quotation and Tenders will include a request for information from Suppliers regarding their sustainable practices and/or demonstrate that their product or service offers enhanced sustainable benefits.

2.1. LOCAL ECONOMIC BENEFIT

The Shire encourages the development of competitive local businesses within its boundary first, and second within its broader region. As much as practicable, the Shire will:

- where appropriate, consider buying practices, procedures and specifications that do not unfairly disadvantage local businesses;
- consider indirect benefits that have flow on benefits for local suppliers (i.e. servicing and support);
- ensure that procurement plans address local business capability and local content;
- explore the capability of local businesses to meet requirements and ensure that Requests for Quotation and Tenders are designed to accommodate the capabilities of local businesses;
- avoid bias in the design and specifications for Requests for Quotation and Tenders – all Requests must be structured to encourage local businesses to bid; and
- provide adequate and consistent information to local suppliers.

To this extent, a qualitative weighting will be included in the evaluation criteria for quotes and Tenders where suppliers are located within the boundaries of the Shire, or substantially demonstrate a benefit or contribution to the local economy. This criteria will relate to local economic benefits that result from Tender processes.

The Shire has adopted a Regional Price Preference Policy, which will be applied when undertaking purchasing activities.

2.2. PURCHASING FROM DISABILITY ENTERPRISES

An Australian Disability Enterprise may be contracted directly without the need to comply with the Threshold and Purchasing Practices requirements of this Policy, where a value for money assessment demonstrates benefits for the Shire's achievement of its strategic and operational objectives.

A qualitative weighting will be used in the evaluation of quotes and Tenders to provide advantages to Australian Disability Enterprises, in instances where not directly contracted.

2.3. PURCHASING FROM ABORIGINAL BUSINESSES

A business registered in the current Aboriginal Business Directory WA (produced by the Small Business Development Corporation) may be contracted directly without the need to comply with the Threshold and Purchasing Practices requirements of this Policy, only where:

- the contract value is or is worth \$250,000 or less, and
- a best and sustainable value assessment demonstrates benefits for the Shire's achievement of its strategic and operational objectives.

A qualitative weighting will be used in the evaluation of quotes and tenders to provide advantages to businesses registered in the current Aboriginal Business Directory WA, in instances where not directly contracted.

2.4. PURCHASING FROM ENVIRONMENTALLY SUSTAINABLE BUSINESSES

The Shire will support the purchasing of recycled and environmentally sustainable products whenever a value for money assessment demonstrates benefits for the Shire's achievement of its strategic and operational objectives.

A qualitative weighting will be used in the evaluation of quotes and tenders to provide advantages to suppliers which:

- demonstrate policies and practices that have been implemented by the business as part of its operations;
- generate less waste material by reviewing how supplies, materials and equipment are manufactured, purchased, packaged, delivered, used, and disposed; and
- encourage waste prevention, recycling, market development and use of recycled/recyclable materials.

3. PANELS OF PRE-QUALIFIED SUPPLIERS

3.1. OBJECTIVES

The Shire will consider creating a Panel of Pre-qualified Suppliers ("Panel") when a range of similar goods and services are required to be purchased on a continuing and regular basis.

Part of the consideration of establishing a panel includes:

- there are numerous potential suppliers in the local and regional procurement related market sector(s) that satisfy the test of 'value for money';
- the purchasing activity under the intended Panel is assessed as being of a low to medium risk;
- the Panel will streamline and will improve procurement processes; and
- the Shire has the capability to establish a Panel, and manage the risks and achieve the benefits expected of the proposed Panel through a Contract Management Plan.

3.2. ESTABLISHING AND MANAGING A PANEL

If the Shire decides that a Panel is to be created, it will establish the panel in accordance with the Regulations.

Panels will be established for one supply requirement, or a number of similar supply requirements under defined categories. This will be undertaken through an invitation procurement process advertised via a state-wide notice.

Panels may be established for a maximum of three (3) years. The length of time of a Local Panel is decided with the approval of the CEO/ Executive Director.

Evaluation criteria will be determined and communicated in the application process by which applications will be assessed and accepted.

In each invitation to apply to become a pre-qualified supplier, the Shire will state the expected number of suppliers it intends to put on the panel.

If a Panel member leaves the Panel, the Shire will consider replacing that organisation with the next ranked supplier that meets/exceeds the requirements in the value for money assessment – subject to that supplier agreeing. The Shire will disclose this approach in the detailed information when establishing the Panel.

A Panel contract arrangement needs to be managed to ensure that the performance of the Panel Contract and the Panel members under the contract are monitored and managed. This will ensure that risks are managed and expected benefits are achieved. A Contract Management Plan should be established that outlines the requirements for the Panel Contract and how it will be managed.

3.3. DISTRIBUTING WORK AMONGST PANEL MEMBERS

To satisfy Regulation 24AD(5) of the Regulations, when establishing a Panel of pre-qualified suppliers, the detailed information associated with each invitation to apply to join the Panel will prescribe one of the following as to whether the Shire intends to:

- obtain quotations from each pre-qualified supplier on the Panel with respect to all discreet purchases; or
- purchase goods and services exclusively from any pre-qualified supplier appointed to that Panel, and under what circumstances; or
- develop a ranking system for selection to the Panel, with work awarded in accordance with the Regulations.

In considering the distribution of work among Panel members, the detailed information will also prescribe whether:

- each Panel member will have the opportunity to bid for each item of work under the Panel, with pre-determined evaluation criteria forming part of the invitation to quote to assess the suitability of the supplier for particular items of work. Contracts under the pre-qualified panel will be awarded on the basis of value for money in every instance; or
- work will be awarded on a ranked basis, which is to be stipulated in the detailed information set out under Regulation 24AD(5)(f) when establishing the Panel. The Shire will invite the highest ranked

Panel member, who is to give written notice as to whether to accept the offer for the work to be undertaken. Should the offer be declined, an invitation to the next ranked Panel member is to be made and so forth until a Panel member accepts a Contract. Should the list of Panel members invited be exhausted with no Panel member accepting the offer to provide goods/services under the Panel, the Shire may then invite suppliers that are not pre-qualified under the Panel, in accordance with the Purchasing Thresholds stated in section 1.4.3 of this Policy. When a ranking system is established, the Panel will not operate for a period exceeding 12 months.

In every instance, a contract must not be formed with a pre-qualified supplier for an item of work beyond 12 months, which includes options to extend the contract.

3.4. PURCHASING FROM THE PANEL

The invitation to apply to be considered to join a panel of pre-qualified suppliers must state whether quotations are either to be invited to every Panel member (within each category, if applicable) of the Panel for each purchasing requirement, whether a ranking system is to be established, or otherwise.

Each quotation process, including the invitation to quote, communications with Panel members, quotations received, evaluation of quotes and notification of award communications must all be made through eQuotes (or other nominated electronic quotation facility).

Each quotation process, including the invitation to quote, communications with Panel members, quotations received, evaluation of quotes and notification of award communications must all be captured on the Shire's electronic records system. A separate file is to be maintained for each quotation process made under each Panel that captures all communications between the Shire and Panel members.

4. PURCHASING POLICY NON-COMPLIANCE

Purchasing Activities are subject to financial and performance audits, which review compliance with legislative requirements and also compliance with the Shire's policies and procedures.

A failure to comply with the requirements of this policy will be subject to investigation, with findings to be considered in context of the responsible person's training, experience, seniority and reasonable expectations for performance of their role.

Where a breach is substantiated it may be treated as:

- an opportunity for additional training to be provided;
- a disciplinary matter, which may or may not be subject to reporting requirements under the Public Sector Management Act 1994;
- misconduct in accordance with the Corruption Crime and Misconduct Act 2003.
